

VETERAN-OWNED

# AUTOMATION SERVICES

Capability Statement · 2026

**We solve the 20% of work that eats 80% of your team's time.**

## ABOUT

Weigh Anchor is a veteran-owned technology and automation firm headquartered in Bellevue, WA. We help construction companies, tribal organizations, and government agencies modernize their operations — from paper-based workflows to AI-powered systems. We map how work actually flows, build the solution, and train your team on it.

## SERVICES

### AI Implementation

AI workflows, document processing, and automated reporting deployed into your operation.

### Automation & Digitization

Paper to digital. Manual to automated. Spreadsheets to dashboards.

### Process Mapping

Document how work flows and find where the time and money go.

### Support & Training

Your team gets trained on everything we build. We stay on as needs evolve.

## OUR PROCESS

01

### MAP

Document how work actually flows today

02

### FIND

Identify bottlenecks and manual waste

03

### BUILD

Deploy automation tailored to you

04

### TRAIN

Your team owns it — we stay on

## CLIENT IMPACT

## WHAT OUR CLIENTS SAY

*“Weigh Anchor automated the processes that were eating up our admin time. We went from chasing paperwork to focusing on building. It's been a game changer for how we run our operation.”*

**LW Landon Woods**  
President & CEO — Woods Construction Group

*“We knew we needed to modernize but didn't know where to start. Weigh Anchor mapped our workflows, built the systems, and trained our team. Now we spend our time on operations instead of admin.”*

**RF Roya Forghani**  
CEO & Founder — Royal Real Estate

## WHY WEIGH ANCHOR

**Built for your operation**  
Every solution designed around how your team actually works.

**Veteran-led**  
USAF Civil Engineering veteran. Disciplined execution.

**We don't disappear**  
Ongoing support, maintenance, and new builds.

**Construction expertise**  
We automate construction ops because we've lived them.

Results based on past client engagements. Outcomes vary by organization.
